

Exciting times...

...For the first three weeks of the term the children will be busy practising for their assembly 'Farmyard Hullabaloo'.

### Science

This term the children will be focusing on the structure of common animals and will be able to name their different parts. They will also be observing the changes in the seasons from spring to summer.

Our final topic of the year is plants and they will be working hard to learn the names of common plants and trees.

### Computing

The children will produce a talking book. This will be linked to their Science work and non-fiction texts and after the half term they will practise using laptops and i-pads to produce and edit their own work.

### Geography

The children will be looking at another country outside Europe. We will be learning about the physical and human landscape, customs and traditions. Thinking about how they are different and similar to where the children live.

# Summer 2018

# Year 1

### Class Teachers:

Mrs O'Boyle and Miss Hodgson

Teaching Assistant: Mrs Gallagher

*Through learning and loving we will follow Jesus.*

### English

In English, the children will be reading some exciting and informative texts focusing on significant authors.

They will be writing character descriptions, letters and instructions based on the texts read.

### Mathematics

In Maths, the children will continue to look at place value to 50 in the new term.

They will also continue with measure, focusing on weight & volume, money and time.

They will continue to practise skip counting in 2's 5's and 10's and be introduced to multiplication and division.

### Design and Technology

The children will be learning about healthy eating and where the food we eat comes from.

They will complete a project to design and make their very own salad!

### Religious Education

Our topics for this term are Holidays / Holydays, Being Sorry, Neighbours and a week where we will be learning all about another faith.
