

## English

This term, the children will write recounts, narratives, a school prospectus and a match report. All of this wonderful writing will be inspired by their learning all about Harry Potter during Autumn 1. We will also perform some poetry and play scripts. What a busy term!

## Topic

Our first topic in year 4 is all about explosive volcanoes and cracking earthquakes! We will learn all about the terminology and discover why they are so dangerous. We will also get the chance to learn some Kung Fu Earthquake moves! To finish off, we will make our very own exploding clay volcanoes and witness a live volcanic eruption!

## Mathematics

The main focus for this term will be place value. The children will be securing their knowledge of four digit numbers before applying this to written and mental methods in addition and subtraction.

## Science

The children will be learning all about sound this term. We will then apply what we have learnt to make our very own ear defenders in design and technology.

Our second topic will be all about states of matter where we will try our hand at some fair testing! Can you find out the best temperature to melt chocolate?

**2018**

**Year 4**

## Other

The children will receive Mathematics and English homework weekly. The homework will be handed out on a Friday, to be returned to school by the following Wednesday. Alongside this homework, the children will also take home library books to be read daily.

## Religious Education

The children's first topic this year is 'People'. During this topic we will learn all about Jesus' family tree and ancestors. We will also complete the 'Called' topic as well as preparing for the Harvest day festival and assembly.

*Through learning and loving we will follow Jesus.*
